funds remaining at the close of the program year shall be carried forward and be available for distribution during the next program year.

**4:00:06. Size and type of Awards**

The Competitive Grant Program will be open to New York City and WOH schools and qualified educational institutions as delineated in 4:00:07, with a preference for those whose audience is Pre-K-12 students. Grants may also include public audiences within the West of Hudson Watershed Towns or City of New York. No grant shall be for less than \$400.00. The maximum grant amount to be awarded is \$10,000.00. The Board may award less than the amount requested in the application. In determining award amounts for each applicant, the Board shall consider the availability of funds, the proposed project, an applicant's need, and an applicant's ability to carry out the proposed activity within 12 months, including the ability to obtain matching funds (if applicable).

**4:00:07. Qualified Educational Institutions**

To be eligible for funding under this program all entities must meet one of the following criteria or partner with a qualified educational institution:

1. Public libraries, museums, pre-schools, kindergartens, primary and secondary schools, high schools, academies, colleges and universities, professional and technical schools, vocational and trade schools, Board of Cooperative Educational Services (B.O.C.E.S.) extension courses and all educational institutions under the supervision of the regents of the state of New York or other educational facility supported in whole or in part by public funds or by contributions solicited from the general public.

**4:00:08. Evaluation Criteria for Competitive Funding**

Program and project design should ensure that resources are used efficiently and that the program or project is repeatable over the short or long term. Public Education Programs intended to serve schools shall supplement and expand upon existing school curricula and programs and not merely replace or restore existing curricula and programs that have been the subject of reduced public funding.

Preference will be given to programs and projects that are realistic and achievable, promote educational partnerships, have a community outreach component, include a plan for written and photographic documentation and have potential to serve as a model elsewhere. In program years when competitive grants are made available to West-of-Hudson applicants, as well as New York City applicants, preference will be given to projects that serve West-of-Hudson audiences. In any program year, special consideration will be given to proposals serving both upstate and downstate audiences. Proposals must provide for an evaluation of outcomes in term of the stated goals of the program or project.

In determining whether to select a project for funding, the CWC shall consider the following criteria. The PEAG written evaluations provided to the CWC Board must address these criteria:

- A. The public education programs and projects are intended to increase public awareness of the human and natural history of the WOH Watershed and the development of the City's water supply system.
- B. The programs shall emphasize the importance of the WOH Watershed to the City and the critical role of the WOH Watershed communities in stewarding the Watershed.
- C. The programs shall emphasize the importance of the diversity and importance of aquatic and terrestrial life in the WOH Watershed, and/or the importance of, and means of preserving, water quality in the WOH Watershed.
- D. Public Education Programs must supplement and expand upon existing school criteria and programs and not merely replace or restore existing curricula or programs that have been the subject of reduced public funding.

**Article 4**

- E. The CWC may only enter into contracts to expend public education program funds with Qualified Educational Institutions. Qualified educational institutions are those as defined in section 4:00:07.
