Project Description:

On October 17, 2024, DEP approved the Stormwater Pollution Prevention Plan (SWPPP) Extension for Stonewall Windham LLC located in Windham, NY. The original SWPPP was approved in June 2009 under a previous owner who did not move the project to the construction phase. The project site is 12.6 acres with 11 acres of disturbance and 4.7 acres of new impervious surfaces. Review and approval of a SWPPP to meet Watershed Regulations was required by NYC DEP. In addition, a SWPPP was required for coverage under the NYS DEC “General Permit for Stormwater Discharges from Construction Activities” (GP-0-20-001).

The project consists of constructing 16 buildings which include 59 townhouses and associated paved parking and roadways, a clubhouse with swimming pool, a retail building, and tennis courts. Stormwater controls on the site include all erosion & sediment controls, three detention ponds, two dry ponds, a dry well underground infiltration structure, ~3220 feet of culvert pipe, plunge pools, check dams, level spreaders, stormwater manholes, and 35 catch basins.

Stonewall Windham LLC submitted an application on June 10, 2025. Engineering and construction costs with a CWC added 15% contingency totaled Two Million Fifty-Three Thousand Seven Hundred Twenty-Nine Dollars and Ninety-Three Cents (\$2,053,729.93). The applicant has elected for 50% reimbursement of all DEP and DEC stormwater costs for a total of One Million Twenty-Six Thousand Eight Hundred Sixty-Four Dollars and Ninety-Six Cents (\$1,026,864.96). The applicant is also considered a small business; therefore, funding will be divided between the Future Stormwater Program and the MOA 145 or Five Hundred Thirteen Thousand Four Hundred Thirty-Two Dollars and Forty-Eight Cents (\$513,432.48) from each program.

This project was previously approved for \$51,553.00. A high-water table was encountered while installing the septic tank and pump chamber. The engineer is proposing an additional 30 linear feet of curtain drain and 30 linear feet of curtain drain outlet pipe to reduce potential for infiltration. The contractor has requested \$1,050.00 for the added work. This amount appears to be reasonable and justified. The Septic Committee recommends that the CWC Board of Directors approve an additional reimbursement of \$1,050.00 for total reimbursement not-to-exceed \$52,603.00.

BOARD APPROVAL OF MOA SEPTIC PROGRAM - SECOND TIME REPAIR ELIGIBILITY – AMANDA BUPP

WHEREAS, pursuant to the Watershed Memorandum of Agreement and the Septic System Rehabilitation and Replacement Program Contracts with New York City Department of Environmental Protection, the Catskill Watershed Corporation (“CWC”) shall act as program manager for the Septic Program and implement the Septic Program consistent with the terms of said contracts; and

WHEREAS, pursuant to section 2:01:05 of the CWC Septic Rehabilitation and Replacement Program Rules (MOA Septic Program) Article 2A, CWC Board of Directors in consultation with the Executive Director may find a property eligible for funding of a septic or component thereof previously paid for by the CWC MOA Septic Program if ten (10) years has elapsed from date of construction completion and absent misuse by the Property owner; and

WHEREAS, by Resolution 5599, the homeowner was approved for eligibility under the MOA Septic Program for a second time repair funding for a hole in the leach field that appeared after a heavy rainstorm; and

WHEREAS, the Applicant, Amanda Bupp, requested eligibility under the MOA Septic Program for a second time repair funding for their septic system; and

WHEREAS, CWC staff have confirmed that the Applicant’s septic system is currently failing or reasonably likely to fail in the near future, that more than ten years has elapsed from date of construction approval, and that the Applicant has not misused the septic system following the prior construction approval; and

WHEREAS, the Septic Committee has reviewed the documentation and recommends the CWC Board approve the Applicant’s eligibility for a second time repair funding from MOA Septic Program.

NOW, THEREFORE LET IT BE RESOLVED, that the CWC Board of Directors in consultation with the CWC Executive Director, approves Applicant’s request for eligibility for second time repair funding from the MOA Septic Program.

Ms. Bupp’s property is in the Town of Shandaken. This project was paid for in 2010 under our Septic Hardship Program under a previous owner. In 2025 Ms. Bupp was approved for a second time repair for exploratory work to find the cause of her septic issue. The leach field has stopped working and is no longer accepting effluent. The homeowner claims to have had maintenance pump outs done but was unaware of the reimbursement program and cannot find her receipts.

WHEREAS, pursuant to the Watershed Memorandum of Agreement and the Septic System Rehabilitation and Replacement Program Contracts with New York City Department of Environmental Protection, the Catskill Watershed Corporation (“CWC”) shall act as program manager for the Septic Program and implement the Septic Program consistent with the terms of said contracts; and

WHEREAS, pursuant to section 2:01:05 of the CWC Septic Rehabilitation and Replacement Program Rules (MOA Septic Program) Article 2A, CWC Board of Directors in consultation with the Executive Director may find a property eligible for funding of a septic or component thereof previously paid for by the CWC MOA Septic Program if ten (10) years has elapsed from date of construction completion and absent misuse by the Property owner; and

WHEREAS, by Resolutions 4553 and 5745, the homeowner was approved for eligibility under the MOA Septic Program for a second time repair funding for their septic system for a pump replacement and pump control board respectively; and

WHEREAS, the Applicant, June Carey, requested eligibility under the MOA Septic Program for a second time repair funding for their septic system; and

WHEREAS, CWC staff have confirmed that the Applicant’s septic system is currently failing or reasonably likely to fail in the near future, that more than ten years has elapsed from date of construction approval, and that the Applicant has not misused the septic system following the prior construction approval; and

WHEREAS, the Septic Committee has reviewed the documentation and recommends the CWC Board approve the Applicant’s eligibility for a second time repair funding from MOA Septic Program.

NOW, THEREFORE LET IT BE RESOLVED, that the CWC Board of Directors in consultation with the CWC Executive Director, approves Applicant’s request for eligibility for second time repair funding from the MOA Septic Program.

June Carey Backup

Ms. Carey’s property is in the Town of Stamford. This project was paid for in 1998 under the Coordinator Program. CWC Board approved eligibility for second time repair program in 2022 and 2025. In 2022 the CWC reimbursed the homeowner for a pump replacement under the Second Time Repair program. The pump control panel was replaced in 2025. Sewage continues to back up into the house. We suspect an issue in the line from the house to the septic tank. Further diagnostic work may be needed. The homeowner had maintenance pump outs done in 2006 and 2022. CWC Septic Committee recommends the CWC Board of Directors approve Ms. Carey’s eligibility for a second time repair funded by the MOA Septic Program.

WHEREAS, the Septic Committee has reviewed the documentation and recommends the CWC Board approve the Applicant’s eligibility for a second time repair funding from MOA Septic Program.

NOW, THEREFORE LET IT BE RESOLVED, that the CWC Board of Directors in consultation with the CWC Executive Director, approves Applicant’s request for eligibility for second time repair funding from the MOA Septic Program.

Evangelia Levine Backup

Ms. Levine’s property is in the Town of Windham. This project was paid for in 2010 under our Priority 5 Program under a previous owner. Galvanized pipe used for the force main has deteriorated, causing effluent to run back into the pump chamber. The force main needs replacing. The pump should be replaced as well, since it has been running constantly. The outlet pipe from the septic tank needs to be extended so that the effluent filter can be serviced. The junction box and float brackets also needs to be replaced and raised in order to service. The homeowner had maintenance pump outs done in 2019 and 2023. Septic Committee recommends the CWC Board of Directors approve Ms. Levine’s eligibility for a second time repair funded by the MOA Septic Program.

**Project Description:**

On July 3, 2024, NYC DEP approved an amendment to the Stormwater Pollution Prevention Plan (SWPPP) for Burton F. Clark Inc., located on NYS Route 10 in Delhi, New York. The project required NYC DEP review and approval of the SWPPP to comply with Watershed Regulations. In addition, a SWPPP was required to obtain coverage under the NYS DEC General Permit for Stormwater Discharges from Construction Activities.

Burton F. Clark Inc. is constructing a phased expansion to its existing manufacturing plant to enhance production capacity, add employee facilities, and expand parking areas. Approximately three (3) acres will be disturbed during construction. Stormwater improvements include construction of new storm sewers, rerouting and upsizing of existing storm sewers, installation of a hydrodynamic separator, underground infiltration chambers, and modifications to the existing infiltration basin.

Burton F. Clark Inc. submitted an application on November 12, 2025, representing design and construction costs totaling Seven Hundred Thirteen Thousand Five Hundred Thirteen Dollars and Four Cents (\$713,513.04). The applicant has elected 50% reimbursement of the eligible amount and is considered a small business; therefore, costs will be split between the Future Stormwater Program and the MOA-145 Program, or One Hundred Seventy-Eight Thousand Three Hundred Seventy-Eight Dollars and Twenty-Six Cents (\$178,378.26) from each program.

April 7, 2026

RESOLUTION NO. 6023

CWC REVIEW OF FLOOD HAZARD MITIGATION PROGRAM APPLICATION

FOR VILLAGE OF HUNTER FIREHOUSE – CONSTRUCTION OF RELOCATED FIREHOUSE

WHEREAS, the Catskill Watershed Corporation (CWC) is a not-for-profit corporation established to administer Watershed Protection and Partnership Programs in the West of Hudson Watershed; and

WHEREAS, the CWC, City of New York (City), all municipalities in the West of Hudson Watershed, New York State, the federal Environmental Protection Agency, and several environmental organizations recognized that the goals of drinking water protection and economic vitality within the West of Hudson Watershed communities are not inconsistent and under the 1997 New York City Watershed Memorandum of Agreement (“Watershed MOA”) agreed to cooperate in the development and implementation of watershed protection programs that maintain and enhance the quality of the City’s drinking water supply system and the economic and social character of the West of Hudson Watershed communities; and

WHEREAS, extensive flooding resulting from Tropical Storms Irene and Lee, in August and September 2011, respectively, caused catastrophic losses in certain towns and villages within the West of Hudson Watershed which affected the economic and social character of certain West of Hudson watershed communities and adversely impacted water quality in the West of Hudson Watershed; and

WHEREAS, as a condition of the 2014 Mid-Term Filtration Avoidance Determination Review, New York City Department of Environmental Protection (NYCDEP) has agreed to fund a Flood Hazard Mitigation Implementation Program to reduce repetitive flood losses that also pose a threat to water quality during storm events through funding certain recommendations of local flood analyses under the NYCDEP Stream Management Program; and

WHEREAS, on March 4, 2014, by Resolution Number 2439, the CWC Board of Directors agreed to serve as program manager of such a program to be referred to as the CWC Flood Hazard Mitigation Implementation Program (the “Program”) and approved a Flood Hazard Mitigation Implementation I Program Agreement with the City; and

WHEREAS, on February 7, 2023, by Resolution 4685, the CWC Board of Directors approved an application by the Village of Hunter for funding for the Relocation Feasibility Study for the Village of Hunter Firehouse Relocation Project; and

WHEREAS, on November 7, 2023, by Resolution 5072, the CWC Board of Directors approved an application by the Village of Hunter for funding for relocation design cost for the Village of Hunter Firehouse Relocation Project; and

WHEREAS, Village of Hunter submitted an application requesting funding not to exceed One Million Five Hundred Twenty-Six Thousand Four Hundred Dollars (\$1,526,400.00) for construction of the relocated firehouse out of the floodway within the Village of Hunter; and

WHEREAS, by Resolution 4173, the CWC Board waived Flood Hazard Mitigation Implementation Program Rules and approved construction funding for the relocation of the Olive Fire House originally located in the floodplain in Boiceville, contingent upon acquiring matching funds towards construction costs; and

WHEREAS, upon CWC staff recommendation and review of the application and supporting documentation, the CWC Wastewater/Stormwater Committee recommends that the CWC Board of Directors waive the categories of allowed funding under FHMIP I, and approve funding in an amount not to exceed 50% of construction costs, up to \$500,000, for relocation of the Hunter Firehouse, and 75% of wastewater construction costs, up to \$50,000, for a total amount not to exceed \$550,000 to the Village of Hunter for firehouse relocation.

NOW, THEREFORE, LET IT BE RESOLVED, that the CWC Board of Directors has reviewed the application, staff recommendation and supporting documentation and approves funding for the Village of Hunter Firehouse Relocation Project in an amount not to exceed 50% of construction costs, up to \$500,000, for relocation of the Hunter Firehouse, and 75% of wastewater construction costs, up to \$50,000, for a total amount not to exceed \$550,000 to the Village of Hunter for firehouse relocation.

Property Owner: Village of Hunter
Contact Person: Michelle Yost
Address: 17 Bridge Street, Hunter, NY 12442
LFA Recommendation: Yes
Property Category: Critical Community Facility
Phase: Construction
Project Description:

The Village of Hunter has submitted an application for construction costs associated with relocating the Hunter Fire Department to a new property located outside of the Special Flood Hazard Area. Relocation of this critical community facility is a recommendation in the Hunter LFA and is integral to facilitating the upsizing of the Bridge Street Bridge, which currently acts as a hydraulic constriction during 10-year flood events and greater.

The Village of Hunter has secured a \$1.97 million State CFA Climate Smart Communities grant for the project. This grant requires a 50% local match, resulting in a Village share of \$2,619,115.

CWC staff recommends reimbursement of 50% of construction costs, up to \$500,000.00, for relocation of the Hunter Firehouse, and 75% of wastewater construction costs, up to \$50,000.00, for a total amount not to exceed \$550,000.00. Alternatively, if agreed upon by DEP, reimbursement could be provided up to \$1,526,400.00 for the full construction amount requested by the Village related to relocation of the Hunter Firehouse.

**CFF – 2026 NYC Reservoir Recreational Boating Program – Port-a-Lets Bid Award – Titan Drilling Corporation – Tab 48**

April 7, 2026

**RESOLUTION NO. 6030**

**APPROVAL OF PORT-A-LETS BID  
FOR THE 2026 NYC RESERVIOR RECREATIONAL BOATING PROGRAM**

**WHEREAS**, the Catskill Watershed Corporation (“CWC”) is a not-for-profit local development corporation whose purpose is, in part, to act in the public interest by promoting increased employment and encouraging environmentally sound development within the West of Hudson Watershed; and

**WHEREAS**, the New York City Department of Environmental Protection (NYCDEP) has collaborated with local municipal governments, environmental organizations, Chambers of Commerce and others and developed recreational boating program for four reservoirs in order to improve regional recreational opportunities for watershed residents and visitors and promote environmentally sound economic development by allowing certain types of reservoir recreational boating that is compatible with water quality protection; and

**WHEREAS**, by Resolution Number 1486, the CWC Board of Directors approved funding of up to One Hundred Fifty Thousand Dollars (\$150,000.00) over three (3) years to fund the Cannonsville Reservoir Expanded Boating Pilot Program in collaboration with NYCDEP, Delaware County Economic Development and the Delaware County Chamber of Commerce; and

**WHEREAS**, the three (3) year Cannonsville Reservoir Boating Pilot Program was completed and NYCDEP expanded the Boating Program to non-terminal reservoirs in the West of Hudson Watershed, including the Pepacton, Neversink, and Schoharie Reservoirs; and

**WHEREAS**, by Resolution Number 2046 and 2271 the CWC Board of Directors approved funding of up to Sixty-Five Thousand Dollars (\$65,000.00) for costs for the first year of the Boating Program at non-terminal reservoirs, including steam cleaning equipment, kiosk and flagpole materials, portable restrooms, program brochures, and road; and

**WHEREAS**, by Resolution Numbers 2437, 2631, 2818, 3008 and 3439 the CWC Board of Directors approved annual funding for costs of the Boating Program at non-terminal reservoirs, including steam cleaning equipment, kiosk and flagpole materials, portable restrooms, program brochures, and road signs; and

**WHEREAS**, by Resolutions Number 4354, 4779, 5223 and 5656 the CWC Board of Directors approved funding for, the 2022, 2023, 2024, and 2025 boating seasons, 15 portable toilets to be delivered to certain parking areas and boat launches at four reservoirs in the West of Hudson Watershed; and

**WHEREAS**, for the 2025 boating season, CWC issued a request for proposal for 15 portable toilets to be delivered to certain parking areas and boat launches at four reservoirs in the West of Hudson Watershed; and

**WHEREAS**, CWC Fiscal Policies require the CWC Board of Directors to approve any expenditures greater than Ten Thousand Dollars (\$10,000.00); and

**WHEREAS**, the CWC Economic Development Committee recommends that CWC Board of Directors approve the bid of Titan Drilling Corp. for an amount of Fourteen Thousand Dollars (\$14,000.00), for 15 portable toilets to be delivered to certain parking areas and boat launches at four reservoirs in the West of Hudson Watershed.

**NOW, THEREFORE BE IT RESOLVED**, the CWC Board approves the award of the bid and authorizes the President and/or the Executive Director to execute contract with Titan Drilling Corp. in an amount of Fourteen Thousand Dollars (\$14,000.00), for 15 portable toilets, including five ADA portable toilets, to be delivered to certain parking areas and boat launches at four reservoirs in the West of Hudson Watershed and serviced weekly for the 2026 boating season.

**NOW, THEREFORE BE IT FURTHER RESOLVED**, approval of funding and award by the Board constitutes a preliminary decision under the 1997 Watershed Memorandum of Agreement and the decision will become final without any further action by the Board unless an objection is timely filed with the Watershed Protection and Partnership Council.

#### **QEDP Evaluation and CWC Staff Recommendation**

#### **Purpose: to review the Funding for the NYC Reservoir Recreational Boating Program**

The Executive Director of the CWC makes the following evaluation concerning funding for the NYC Reservoir Recreational Boating Program. Evaluation is based on the Evaluation Criteria established in the Catskill Fund for the Future Program Rules, approved on August 22, 2001, and revised on May 24, 2005 by the CWC Board of Directors.

10. Based on due inquiry to the NYS DEC, the NYC DEP and to the best of CWC's knowledge, the Boating Program for the Cannonsville, Neversink, Pepacton and Schoharie Reservoir is presently in compliance with all applicable environmental statutes and regulations.
11. Based on due inquiry to the NYS DEC and to the best of CWC's knowledge, Titian Drilling Corporation is not subject to any enforcement actions by any regulatory agency.
12. (a) To the best of CWC's knowledge, the project is consistent with historic land use patterns, available infrastructure and sensitivity to the need for water quality protection.
  - (xix) CWC will use the funds to pay for porta-johns.
  - (xx) The project is located in the Towns of Andes, Colchester, Deposit, Gilboa, Middletown, Neversink, Prattsville, Tompkins and Walton.
  - (xxi) The project appears to present no threat to water quality.
  - (xxii) The project appears to generate no materials with the potential to degrade water quality that are not pre-treated prior to release.
  - (xxiii) Based upon NYC DEP, a portion of the project is in the 60-day travel time zone.
  - (vii) There is no impact on Federal or New York State Wetlands.
- (b) The project maintains the character of the Towns of Andes, Colchester, Deposit, Gilboa, Middletown, Neversink, Prattsville, Tompkins and Walton
  - (xiii) The project is consistent with current zoning in the Towns of Andes, Colchester, Deposit, Gilboa, Middletown, Neversink, Prattsville, Tompkins and Walton.
  - (xiv) The project is compatible with surrounding land uses.
  - (xv) The project will not generate excessive traffic.
  - (xvi) The project as described is of such magnitude that it does not appear likely to promote secondary growth and therefore requires no additional review of land use plans or infrastructure.
